DXpedition News

Sable Island - CY A multi-operator crew led by Wayne King VE1CBK will operate **CYØSAB** Oct. 2-9, on all bands, CW, SSB, and packet. They have requested a special callsign ending in NSM, signifying the involvement of the Nova Scotia Museum in this operation. They will be on the usual DX frequencies. QSL to VE1CBK, P. O. Box 32, Site 35, RR#1, Windsor Junction, NS Canada B0N 2V0. [The *Callbook* has the wrong postal code.] Sunrise 1010Z; sunset 2130Z.

Wallis Island - FW Yutaka Tasaki JR1LZK, Yasunor Iitsuka JI1NJC, and Shinji Shimada JA5VBH will operate from Wallis Oct. 28-Nov. 4, under a callsign to be announced. All bands 160-6 meters, on CW and SSB. QSL via JI1NJC, 191 Sugaya Naka-Machi Naka-Gun, 311-01 Japan. Sunrise 1725Z; sunset 0550Z.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Reserve Your Island - CQWW SSB

- **ZD8Z** with Jim Neiger N6TJ will be an all-band entry, geomagnetic activity permitting. Jim will be on Ascension (AF-003) Oct. 13-28, with plenty of activity before the test. QSL VE3HO, Box 1156, Fonthill ON Canada L0S 1E0. Stateside DXers may use VE3HO's US address (and US return postage): Box 2641, Niagara Falls NY 14302.
- **ZF2RJ** is Jim Rafferty N6RJ's new Cayman Island (NA-016) call. Jim will single-band 40 meters again this year, looking at the low paths at sunrise (1130Z) and sunset (2255Z). QSL ZF2RJ and Jim's old call of **ZF2JR** to N6RJ (**not** N6JR!)
- **VP2V/WA2VUY** (NA-023) will again be active in the test, as well as SSB activity on all bands, including the new bands, outside the test; QSL via home call.

Shortly Noted

- **4J1FS** will be active from M-V Island Oct. 22-26, including the CQWW SSB test, with a multi-national operating crew. More details to follow.
- **V29SW** (ex-9X5SW) will operate from Antigua for the next four years, on all bands. QSL via DL1HH, or direct to Box 1203, St. Johns, Antigua, Leeward Islands.
- **4U47UN** is the call of 4U1UN to the end of October, marking the 47th anniversary of the UN; QSL W8CZN.
- **VK9WW** is the call of a Willis Island (OC-007) operation Oct. 7-14. 160-6 meters, CW, SSB, and RTTY, with VK2BEX, VK9NL, and VK9NS operating. (W1AW.)
- **XV7TH** will remain in Vietnam for another year. QSL via SK7AX, SVARK, Box 2035, S-56102 Huskvarna, Sweden. He has been noted on 21295 kHz at 1300Z. [The information in Issue 654 was incorrect.]
- **RK3B** is the 1992 contest callsign of Moscow club station UZ3AWO. QSL direct to Box 132, Moscow 107005, Russia, or via the bureau to UZ3AWO.
- **HFØPOL** in the Shetlands Islands is on 1830 kHz at 0130-0230Z, and either 3507 or 3799 khz 0230-0430Z.
- **4S7DEG** is the requested callsign of Deryck Buckley G3VLX from Sri Lanka (AS-003) Oct. 7-30. He'll be on 40, 20, 15, and 10 meters, mostly SSB. (DXNS.)
- **4U1ITU** from Geneva will be active on CW Sept. 26-27, with Luc Glarey I1TRL at the key; QSL home call.(DXNS.)
- **XYØQ, XYØZ,** and **XYØRR** were active from East Burma (Myanmar) Sept. 16-20, with operators Toshi JA8RUZ and Jiro JH3GYQ; QSL to Box 288, Saporro, Japan.
- **W6RO** on the Queen Mary in Long Beach CA has been closed down by the Disney Corp, after 20 years.
- **5R8GW** expects to get his written operating permission soon, as have other 5R8s. 5R8GW seeks an Apple 2C computer and 640K drive and logging software; anyone who can help should contact The DX Bulletin.
- **RTTY: FR5ZU/J** should be active until Oct. 4; from Glorioso he was worked on 14084 kHz at 1300Z, and 21083 kHz at 1800Z, listening up 6 kHz. His preferred address is: Jacques Quillet, Box 247, 1 Cite Meteo Chadron, F-97494 Ste. Clotilde Cedex, Reunion Island, via France. Regulars: **UG7GWY** 21087± 1300z; **6W6JX** 21085± 1300z; **LY2ZZ** 14084 1500Z.

Islands On The Air

- **V31SW**, who operated as **V31TI** from Turneffe Island (NA-123) in Nov. 1990, leaves Belize soon; anyone still needing a V31TI card should QSL promptly to Scotty Williams, Box 1522, Belize City, Belize.
- **8P9DR** is Rick Dorsch NE8Z's first choice for a Barbados (NA-021) call for his Oct. 26-Nov. 3 operation. (Other choices were 8P9EE or 8P9MD.) He'll be on 50110 kHz, 25 kHz up on CW on 40, 20, 15, and 10 meters, and on the IOTA SSB frequencies: 14260, 21260, and 28460 khz. QSL to John Kroll K8LJG, 3528 Craig Drive, Flint MI 48506.

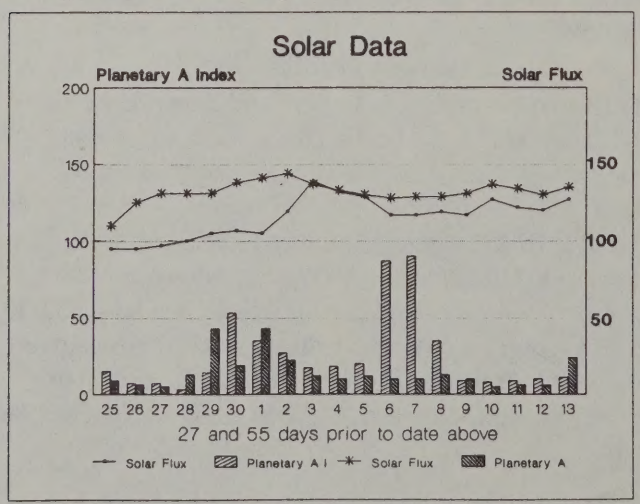
Propagation Watch

The bands finally quieted down last week, after active Sunspot Region 7276 rotated to the back of the sun. The geomagnetic field dropped out of the Active category, and the bands improved immediately. The combination of the fall equinox (Sept. 22) and a stable sun has provided DXers with openings on most bands.

Although the local dawn opening to the west is best on 40 and 30 meters, occasionally the MUF is high enough to provide 20-meter contacts. Soon after sunrise, 15 will open on the sunlit path, even on high-latitude paths. 15 is a good daytime band, with reasonable signal strengths. 10 and 12 meters open on north-south and some low-latitude paths in the early afternoon. 20 remains open for a while after local sunset. When the geomagnetic field has been quiet for a couple of days in a row, check 80 meters late at night.

With the quiet side of the sun in our direction for the next few days, we should see good DXing for a while. Be prepared for an increase in flares and geomagnetic activity at the end of the month, and into October. Band conditions Sept. 25-26 should be a good indicator of CQWW SSB conditions; check out the bands and prepare your contest bandplan. Good hunting.



Response to Monk Apollo

In Issue 647 we printed an open letter to the ARRL DXCC desk from Monk Apollo SV2ASP/A about DJ6SI/SY. Monk Apollo concluded his letter with: "If you don't cancel the transmission of DJ6SI, you will never hear me on the air." Chuck Hutchinson K8CH, manager of the ARRL Membership Services Department than includes the DXCC desk, responded as follows:

"Dear Apollo,

"Your letter arrived today [July 23]. It had appeared on electronic networks in the USA some time earlier. We also received a letter from Monk Damaskinos, and I have answered him.

"We understand that you are not happy about what happened with regard to Baldur Drobnica. ARRL regrets any disruption of life and worship in Mount Athos caused by Amateur Radio operations. We are particularly concerned that the Holy Community may now regard Amateur Radio in a negative way.

"With help from the RAAG [the Greek amateur radio society], we have been able to reach an understanding of the legal requirements for Amateur Radio operation from Mount Athos. [See Issue 633, page 2.] However, we were unable to make a distinction between DJ6SI/SY and other operations that have counted for DXCC in the past. We cannot undo the past, and it is not possible for us to erase credits from DXCC records. The enclosed News Release explains the steps we have taken to assure that only QSL cards from properly authorized stations are accepted for Mount Athos DXCC credit.

"Sincerely and with 73, Charles L. Hutchinson"

[Thanks to the NJDXA Newsletter, K2AIO editor.]

Tall Stacks Celebration

Amateurs in Indiana, Kentucky, and Ohio will participate in the 1992 Tall Stacks Celebration of river steamboating throughout October, thanks to the Greater Cincinnati ARA and the OH-KY-IN ARS. Special QSL cards that feature the historic steam paddle riverboats will be available for contacts during the month; participating amateurs will add suffixes of "tall stacks" or /TS. OH-KY-IN club station K8SCH will be especially active Oct. 15-18.
